

FIU Sri Lanka engages with 'Uppsala Security' in a successful joint analysis of the Blockchain transactions to counter the emerging trend of cryptocurrency usage in illegal schemes in Sri Lanka.

From left, third - Mr. Athul Harilal (Head of Threat Intelligence Research), Uppsala Security, with the FIU team

Headquartered in Singapore, Uppsala Security is a crowdsourced threat intelligence organization that has assisted more than 1400 cryptocurrency theft victims and has also assisted Law Enforcement Agencies (LEAs) in several countries in their cryptocurrency investigations.
